Una delle zone **più belle d'Italia**, situata nel “tacco” della nostra penisola, patria di spiagge incontaminate e famose cave di pietra naturale.

Molte pietre naturali provenienti da quelle zone sono di origine calcarea con tutti i pro e contro che ciò comporta dal punto di vista estetico e tecnico.

La nostra interpretazione di quelle pietre mostra **stonalizzazioni** evidenti ma allo stesso tempo **armoniche**, è idonea all'utilizzo sia per interni che esterni grazie alle diverse finiture disponibili in gamma e nonostante sia stata creata per la **posa modulare**, ogni formato è offerto individualmente.

*One of the most **beautiful areas in Italy**, located in the “heel” of our peninsula, home to pristine beaches and renowned natural quarries.*

Most of the natural stones available in that area have a limestone origin with their aesthetical pros and technical cons.

***Our interpretation** of those stones has evident yet **harmonic shade variations**, it is suitable for indoor and outdoor applications thanks to different finishes available in the series, and while being born for **modular installation**, all sizes are offered individually.*
